

MEETING MINUTES		
Project Name	URXperience	
Meeting Name	Meeting with UofR Residence manager	
Meeting Facilitator	The 4 Codesmen	
Meeting Details	October 19th, 2022	
Meeting Invitees	Favor, Dinish, Dhruv, Abraham, Bryan	
Minutes:		
Topic	Summary of Discussion/Decision	
Project explanation & business need/opportunity	The team gave a short presentation of the project idea to Bryan as well as giving him a demo of the current hiFi prototype we had designed so far.	
Bryans feedback	Liked the design, and the idea. Initial feedback after viewing the prototype was that it seemed more of a university app vs a residence app. He inquired about the duration of the project because typically they plan things out about a year in advance and if we would be around to continue the project or have it ready by january. Also informed us that we might face some issues with university policy. Bryan also had concerns about how we would provide security for the chat system to prevent misuse. We discussed AI for the chat system as a measure that could be integrated. Bryan is willing to help out in the future if we require him but asks that we evaluate first if we are making the app for residents or for the university.	
Action Items:		
Description of Action	Assigned to	Date Required
Discuss security concerns raised by Bryan	All members	Oct 20th, 2022

with our mentor Dr. Gelowitz

Evaluate project vision and decide on plan
moving forward
