

PROJECT CHARTER	
<b>Project Name</b>	URXperience
<b>Date Produced</b>	September 23rd, 2022
<b>Project Goals</b>	A complete web application allowing UofR residents to view events happening around them, via updates from the resident assistants; residents can check out new recipes posted daily with some instructions; they can also connect with other students to form study groups on and around campus. The project intends to link students' faculties to their account to better allow them to build their community of friends with similar classes living on campus by using the chat features which will be integrated into the application.
<b>Project Objectives</b>	Integrated chat system in the app that is established for all UR residents to be able to communicate. RA communication channel to be able to create and post events going on campus residence. Recipe of the day giving students ideas on what to make and how to make a given meal. Embedded map displaying local foods nearby.
<b>Project Budget</b>	\$120
<b>Project Sponsor</b>	Dr. Tim Maciag
<b>Project Manager(s)</b>	Favor Fasunwon - Frontend Developer/UNIX Designer Dhruv Modi - Team lead/Backend Developer Dinesh Dalip - Software Architect/Backend Developer Abraham Mugerwa - Frontend developer/Documentation Manager
Additional Key Project Stakeholders	
UofR residents Residence Assistants University Of Regina	
Overall Project Milestones	Dates
Produce initial project documentation(Project Charter, Project Scope, Business Case, Roles & responsibilities, RACI chart, Project Requirements)	Sep 25th, 2022

Architectural designs(business process, data, class, develop low/high fidelity prototypes, etc)	Oct 5th- Oct 9th, 2022
Start of MVP 1	Oct 10th
Testing of low/high fidelity prototypes.	Oct 10th-Oct 16th
In progress MVP 1(with User testing planned)	Oct 16th - Oct 30th
Continued user testing/ MVP 2 exploration	Oct 30th - Nov 13th
Start MVP 2	Nov 20th
<b>Overall Project Risks</b>
