Minutes:

Topic	Summary of Discussion/Decision
Demo Work completed	Did a demo of work completed so far, which included recipe page, takeout page and chat system to get some feedback as to the flow of our application and if our progress is on par.
Feedback from Craig	Pleased that we have begun development and feels we are on the right track in terms of progress. Two comments for us to consider below: **Chat rooms**: Consider adding functionality for users to join other chat rooms, for example if you have a friend from a science class that you want to chat with. **Web Hosting**: look into hosting our program publicly on a server not just locally hosting locally so that we can resolve those potential backend issues ahead of time.
